Morton Line: 309.266.5923 Telefax: 309.671.5459 email@ginolicpa.com www.ginolicpa.com

#### INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Parlin-Ingersoll Public Library Canton, Illinois

We have audited the accompanying modified cash basis financial statements of the governmental activities of the Parlin-Ingersoll Public Library (the "Library") as of and for the year ended May 31, 2019, and the related notes to the financial statements, which collectively comprise the Library's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1E; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities of the Parlin-Ingersoll Public Library as of May 31, 2019, and the respective changes in the modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1E.

#### **Basis of Accounting**

We draw attention to Note 1E of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

#### Other Matters

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Parlin-Ingersoll Public Library's basic financial statements. The budgetary comparison schedule – general fund on page 32 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The budgetary comparison schedule – general fund on page 32 is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Parlin-Ingersoll Public Library's basic financial statements as a whole. The management's discussion and analysis, the Comparative Statement of Revenues Received and Expenditures Disbursed, Schedule of Investments, Schedule of Disbursements > \$2,500, and Schedule of Compensation of pages 7 through 12 and 34 through 37, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Comparative Statement of Revenues Received and Expenditures Disbursed is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Comparative Statement of Revenues Received and Expenditures Disbursed is fairly stated in all material respects in relation to the basic financial statements as a whole.

The management's discussion and analysis, Schedule of Investments, Schedule of Disbursements > \$2,500, and the Schedule of Compensation on pages 7 through 12 and pages 35 through 37 have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

We also have previously audited in accordance with auditing standards generally accepted in the United States of America, the financial statements of Parlin-Ingersoll Public Library as of and for the year ended May 31, 2018, not presented herein, and our report thereon dated July 23, 2018, expressed an unmodified cash basis opinion on those financial statements. That audit was conducted for purposes of forming an opinion on the financial statements as a whole. The 2018 Statement of Revenues Received and Expenditures Disbursed on page 34 is presented for purposes of additional analysis. Such information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the 2018 financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement themselves, and other additional procedures in accordance with standards generally accepted in the United Sates of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements from which it has been derived.

## PARLIN-INGERSOLL PUBLIC LIBRARY MANAGEMENT'S DISCUSSION AND ANALYSIS: FY19

Our discussion and analysis of the Parlin-Ingersoll Public Library's financial performance provides an overview of the library's financial activities for the fiscal year ending May 31, 2019. Please review in conjunction with the Library's basic financial statements.

#### FINANCIAL HIGHLIGHTS AND OVERVIEW OF FINANCIAL STATEMENTS

• Operations: In FY19 total library expenditures were over revenue by \$66,663 for the first time in five years compared to being under \$5,019 (FY18), \$25,299 (FY17--\$36,314 per audit), \$12,677 (FY16--\$798 per audit, \$40,623 (FY15), and \$95,996 (FY14). (These figures include a gain/loss on investments). This is compared to prior expenditures exceeding revenue by \$40,364 (FY13), \$60,311 (FY12), and \$110,456 (FY11).

Revenues are budgeted conservatively. In addition, the library has kept very tight control over operating expenditures the past five years despite larger capital expenses. As we continue to complete the recommended building maintenance upgrades, these trends might not continue.

- Salary and Benefits: Our total expenditures for salaries and wages ended at \$21,479 under budget and the total of payroll taxes, pension and health insurance ended at \$15,777 under budget. We had several staff take unpaid time. In addition, we had several vacancies, which went unfilled for a few months until replacements were hired. We also decided not to replace a full-time position when an employee resigned unexpectedly in February.
- **Utilities, Telephone, and Internet:** The total expenditures for utilities, telephone and internet were \$7,775 under budget. This decrease may partially be attributed to the conversion to LED lighting in the building, and we received eRate funding, which program administrators are required not to budget for the receipt of.
- Building and Ground Maintenance: The total expenditures were under budget by \$4,889. We had less use of electricians and less general supplies used in FY19.
- Other Expenditures: Print and non-print materials appear over budget, but this can be attributed to receiving unanticipated Per Capita Grant monies and donations.
- Capital Expenditures: The library budgeted \$60,250 for capital expenditures in FY 19. The library continues to work on a suggested maintenance schedule from our architect. The replacement of the 1994 section of roofing was completed for the fall of 2018 (FY19). While the budgeted amount was estimated at \$40,000, the work actually cost \$74,982.62. Some parking lot repairs were completed as well with crack repair costing \$4,250 and patch repair costing \$17,995.

We had unexpected capital costs as well. While we had hoped to replace it in FY20, our 2004 telephone system stopped working and needed to be replaced in the fall for a cost of \$8,637.96. Our security camera server was running Windows 7 and needed an upgrade as well at a cost of \$5,913.

The actual cost for capital expenditures in FY19 was \$111,779.

- Ingersoll Income: Charles D. Ingersoll Trust quarterly disbursements totaled \$606,503. This represents about a very slight increase of .24% from the \$605,065 in FY18 and an overall decrease of 8.15% from our FY09 distribution of \$660,340. The revenue decline has been due to lower interest rates and investment losses in the Trust since 2008. The rolling-three-year valuation average used to calculate trust distributions can help spread out the impact of these losses.
- State Grant: The Library received an Illinois state per capita grant in FY19 that had been awarded in FY18, administered by the Illinois State Library, in the amount of \$18,380. The state per capita grant monies are drawn from the State of Illinois' general tax fund and the Secretary of State's Live and Learn fees. These tax and fee monies are collected from all taxpayers in Illinois. Library participation in the per capita grant program recaptures tax and fee monies collected from Canton-area citizens. There are no local property taxes collected for library services at this time. Income from Ingersoll Trust disbursements and accumulated savings represents a per capita value of \$42.62. We would need to levy a property tax averaging \$115.92 per household to replace Ingersoll revenues of FY19.
- Other Income: The Library earned a total of \$22,000 in miscellaneous receipts, down from \$22,505 (FY18) and \$25,753 (FY17). Overdue fees accounted for \$6,027 in FY19 (\$6,867 in FY 18 and \$7,840 in FY17) and replacement charges for lost or damaged materials recovered was \$1,582 in FY19 (\$1,444 in FY 18 and \$1,936 in FY17). The rest of the revenue was generated primarily from cost-recovery assessments, such as photocopies, computer prints, proctoring fees, book sales, donations, etc. The top income generators in these areas in FY19 were photocopies at \$3,067, computer prints at \$4,301, and faxes at \$3,780. The drop in Miscellaneous Income is spread among all categories.

#### **OVERVIEW OF ASSETS**

- Changes in Savings and Investments: The library ended the fiscal year with \$980,751.16 in capital reserves at Mid-America National Bank, compared to \$1,011,124.01 in fiscal year 2018. Due to reduced revenues, our capital reserves have declined from \$1,245,602 at the end of fiscal year 2008. We ended with a balance in our MidAmerica National Bank checking account of \$81,213.58.
- Capital Asset Investment: The library budgeted \$60,250 for capital expenditures in FY19. The library continues to work on a suggested maintenance schedule from our architect. The replacement of the 1994 section of roofing was completed for the fall of 2018 (FY19). While the budgeted amount was estimated at \$40,000, the work actually cost \$74,982.62. Some parking lot repairs were completed as well with crack repair costing \$4,250 and patch repair costing \$17,995.

We had unexpected capital costs as well. While we had hoped to replace it in FY20, our 2004 telephone system stopped working and needed to be replaced in the fall for a cost of \$8,637.96. Our security camera server was running Windows 7 and needed an upgrade as well at a cost of \$5,913.

The actual cost for capital expenditures in FY19 was \$111,779.

• **Debt:** The Library has no short-term or long-term debt to service.

#### **FY20 Budget Forecast**

The Board approved the FY20 Budget at \$12,937 over in operating expenses and \$117,937 over if also including anticipated capital expenses. Capital expenses in FY20 include replacement of the library Polaris automation system and network, possible sidewalk repairs, and possible continued parking lot repairs.

Our income for FY19 was \$668,635 compared to \$658,455 (\$683,971 per audit) for FY18, \$646,545 (\$671,421 per audit) for FY17 and \$696,891 (\$685,013 per audit) for FY16. Total income has fallen from a historic high of \$767,391 in FY08 to \$668,635 in FY19, a decline of \$98,756 or about 12.9 percent.

The Charles D. Ingersoll Trust did decrease slightly in value from Dec. 31, 2017 to Dec. 31, 2018. The 3-year rolling average used to calculate our income rolled off a slightly higher year than the one brought in.

For FY20 when looking at the 3-year rolling average of the Charles D. Ingersoll Trust used to calculate our income, we will be rolling off Dec. 31, 2016 (\$23,575,317) for the value on Dec. 31, 2019. The close on Dec. 31, 2017 (\$25,803,835) and Dec. 31, 2018 (\$23,345,535) will be averaged [with the value on Dec. 31, 2019] to determine our distributions for calendar year 2020.

From 2008 to 2018 the value of the 3-year rolling average has <u>declined 6.3%</u> while the Consumer Price Index has increased 19.5%.

In addition, we have been awarded a Per Capita Grant for 2019 (FY20) of \$18,380, which has not yet been received. Previous Per Capita Grants were \$18,380 in FY19, \$11,335 in FY18, \$11,335 in FY17, \$18,380 in FY16. Our estimated income for FY20 is \$639,030.

#### GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the Library.

The statement of activities demonstrates the degree to which the direct expenses of a given function of segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to patrons or the general public who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other items not properly included among program revenues are reported instead as *general revenues*.

#### USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. Fund financial statements reported in these sections tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the Library's operations in more detail than the government-wide statements by providing information about the Library's most financially significant funds.

The Parlin-Ingersoll Public Library, being an independent governing and non-tax levying body, only has governmental funds. *Governmental Funds:* The Library's services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified cash basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Library's operations and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Library's programs. We described the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation included in Notes 1, 2, and 3 in the Notes to Financial Statements.

*Notes to the Financial Statements:* The notes provide additional information that is essential to a full understanding of the data provided in the governmental-wide and fund financial statements. The notes to the financial statements can be found in a following section.

Other Information: In addition to the basic financial statements and accompanying notes, this report also presents budgetary comparison schedules for the major fund. A comparison of revenues received and expenditures disbursed for the years ended May 31, 2018 and 2019 can be found in the section titles "Comparative Statement of Revenues and Expenditures Disbursed." A "Schedule of Investments", "Schedule of Disbursements=>\$2,500" and "Schedule of Compensation" can also be found.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. Nature of Operations and Organization

The Parlin-Ingersoll Public Library ("Library") is an information center which offers to its patrons, of all ages, a broad range of materials and services. These include books for leisure reading and education, professional reference assistance in person or over the telephone, audiovisual materials, computer and internet access, DVD media and magazines. The Library supplements and enhances its services through membership in the RAILS Library System that provides back-up reference, inter-library loan delivery, and other services.

#### B. Reporting Entity

The criteria of oversight responsibility, special financing relationships, and the scope of public service were used in determining if any agencies or entities should be included as component units within the Library's reporting entity. Oversight responsibility is determined by the extent of financial interdependency, control over the selection of the governing authority and management, ability to significantly influence operations, and accountability for fiscal matters. Based on these criteria, the Library has no component units.

#### C. Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position – modified cash basis and the statement of activities – modified cash basis) report information on all of the non-fiduciary activities of the Library using the economic resources measurement focus.

The statement of net position – modified cash basis presents the financial position of the Library at the end of the fiscal year. The statement of activities – modified cash basis demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program, function, or segment. Program revenues include 1) charges to patrons or the general public who purchase, use, or directly benefit from goods, services, or privileges provided by the Library and 2) grants and contributions used for the operational or capital requirements of the Library. Other items not properly included among program revenues are reported instead as general revenues.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

#### C. Government-Wide Financial Statements - continued

### **Net Position**

Equity for government-wide financial statements is presented as net position and is classified into three components:

- 1. Net investment in capital assets This consists of capital assets net of accumulated depreciation and related debt.
- 2. Restricted This consists of net position with constraints placed on the use either by (a) external groups, such as grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation. Restricted net position is reported using the same definition as used for restricted fund balance described below.
- 3. Unrestricted This is all other net position not included in the above two categories.

The Library applies restricted resources first when an expenditure is disbursed for purposes for which both restricted and unrestricted resources are available.

#### D. Fund Financial Statements

The Library segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Each fund is considered to be a separate accounting entity with a self-balancing set of accounts. The Library has only one fund type and one fund as follows:

#### Governmental Funds

Governmental Funds – Governmental funds are those through which most governmental functions are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. The Library's one governmental fund is as follows:

General Fund – The general fund accounts for all financial resources except those required to be accounted for in other funds. The general fund balance is available to the Library for any purpose, provided it is expended or transferred in accordance with applicable laws. Certain resources obtained from state grants and donations used to support general library activities and capital projects are accounted for in the general fund.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

#### D. Fund Financial Statements - continued

#### Fund Balances

In the governmental fund financial statements, the fund balance is reported using five classifications:

- Non-spendable includes amounts that are required to be maintained intact. The Library does not have any non-spendable fund balances this fiscal year.
- Restricted includes amounts constrained to specific purposes by their providers (such as grantors, donors, and higher levels of government), through constitutional provisions or by enabling legislation.
- Committed is that portion of the fund balance that has been approved by the highest level of authority i.e. the Library's Board of Trustees. The Library does not have any committed fund balance this fiscal year.
- Assigned includes amounts the government intends to use for a specific purpose, but does not meet the criteria for restricted or committed. Intent can be expressed by the Board of Trustees or by an official or body to which the Board delegates the authority. The Library does not have any assigned fund balance this fiscal year.
- Unassigned is the residual classification of the fund balance that is not included in one of the categories above. These amounts are reported only in the General Fund.

For purposes of fund balance classification, expenditures are to be from restricted fund balances first, followed in order by committed fund balance, assigned fund balance and lastly, unassigned fund balance.

#### E. Basis of Accounting

The government-wide financial statements and the fund financial statements are reported using the modified cash basis of accounting. Revenues are recorded when cash is received rather than when earned and expenditures are recorded when cash is disbursed rather than when a liability is incurred. Modifications to the cash basis of accounting result from management's decision to record fixed assets, accumulated depreciation, and depreciation expense in the financial statements.

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

#### F. Budgeting

The Library's Board of Trustees adopts a budget during the last fiscal quarter of the prior fiscal year on the cash basis of accounting. The budget for fiscal year 2019 was approved April 18, 2018. The Library does not levy property taxes, and therefore, does not issue a tax levy ordinance nor an appropriation ordinance.

#### G. Investments

Investments are accounted for at amortized cost which approximates market value. Gains and losses on investments are recorded at redemption and disposal.

#### H. Capital Assets

Capital assets, which include land, land improvements, buildings, furniture, and equipment, are reported in the government-wide statement of net position. Capital assets are defined by the Library as assets with an initial, individual cost of \$2,500 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation, providing they have a fair market value of \$2,500 or more.

Books and other library materials are treated as expenditures in the year of purchase. The Library has elected not to capitalize books and other library materials and collections.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset life are not capitalized, but shown as an expense when disbursed.

Land improvements, buildings, furniture, and equipment are depreciated using the straightline method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	20
Buildings	35
Building Improvements	20-30
Furniture	5-20
Office equipment	5
Computer automation	5
Other equipment	5

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

#### I. Use of Estimates

In preparing the financial statements, management is required to make estimates and assumptions for depreciation expense that will affect the reported amount of assets, expenses, and net position. Actual results could differ from those estimates.

NOTE 2: EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUNDS STATEMENT OF ASSETS, LIABILITIES, AND FUND BALANCE – MODIFIED CASH BASIS AND THE STATEMENT OF NET POSITION – MODIFIED CASH BASIS

The Library's governmental fund balance of \$1,062,503 differs from the net position of \$2,082,421. This difference primarily results from the long-term economic focus of the Statement of Net Position – Modified Cash Basis versus the current financial resources focus of the Governmental Fund Statement of Assets, Liabilities, and Fund Balance – Modified Cash Basis. The differences are explained below:

#### Governmental Fund Balance

\$ 1,062,503

Governmental funds report capital outlays as expenditures. However, the Statement of Net Position - Modified Cash Basis includes capital outlays, net of accumulated depreciation, in the assets of the Library as a whole.

1,019,918

Net Position of Governmental Fund

\$ 2,082,421

# NOTE 3: EXPLANATION OF DIFFERENCES BETWEEN GOVERNMENTAL FUND CHANGE IN FUND BALANCE AND THE STATEMENT OF ACTIVITIES CHANGE IN NET POSITION

The change in fund balance for the governmental fund of \$(66,663) differs from the change in net position of \$(53,969). The differences arise primarily from the long-term economic focus of the Statement of Activities – Modified Cash Basis versus the current financial resources focus of the governmental fund as reported on the Statement of Activities – Modified Cash Basis. The differences are explained below:

Net Change in Governmental Fund Balance (\$66,663)

Capital assets purchased are reported as expenditures in the governmental funds. However, the cost of these are added to capital assets and depreciated in the Statement of Activities - Modified Cash Basis.

Capital Outlay \$92,653

Depreciation Expense (\$79,959)

Change in Net Position of Governmental Fund (\$53,969)

#### NOTE 4: CASH AND INVESTMENTS

Illinois Compiled Statutes authorized the Library to invest in certain securities. A limited description of what the statute authorizes the Library to invest in, is as follows:

- A. Bonds, notes, certificates of indebtedness, treasury bills, or other securities guaranteed by the United States of America or issued by the United States of America, its agencies, and its instrumentalities.
- B. Interest bearing savings accounts, certificates of deposit, or time deposits or any other investments constituting direct obligations of any banks as defined by the Illinois Banking Act.
- C. Money market mutual funds that invest in A above.
- D. Municipal obligations.
- E. In Illinois Funds.
- F. In a fund managed, operated, and administered by a bank, subsidiary of a bank, or subsidiary of a bank holding company or use the services of such entity to hold and invest or advise regarding the investment of any public funds.

#### Cash and Cash Equivalents

The Library considers demand deposits and liquid investments with an original maturity of 90 days or less to be cash and cash equivalents.

#### NOTE 4: CASH AND INVESTMENTS – continued

#### **Deposits**

The Library's cash and cash equivalents consist of deposits with financial institutions, a US Government money market fund, and a petty cash fund. At May 31, 2019, the carrying amount of the Library's cash and cash equivalents totaled \$203,393 and consisted of \$81,502 in bank deposits, \$121,641 invested in a US Government money market fund, and \$250 in a petty cash fund. The Library's bank deposits are fully insured by FDIC insurance.

#### Investments

The Library's investments are as follows:

	Carrying	Market	Maturity	in Years
	Amount	Value	< 1yr	1-5 yrs
Municipal Bonds and Notes	\$403,017	\$399,566	\$201,164	\$201,853
Certificates of Deposit	456,093	455,787	311,093	145,000
Total Investments	\$859,110	\$855,353	\$512,257	\$346,853
Total investments	\$ 639,110	φ 633,333 ————————————————————————————————	\$312,237	\$340,633

#### Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fullfill its obligation of repayment upon maturity and also takes into account the concentration of investments in a single issuer. The Library's investment policy mitigates this risk by requiring that investments be covered by FDIC insurance or adequately collateralized, as appropriate and be in compliance with Illinois Compiled Statutes. All of Certificates of Deposit are fully insured by FDIC insurance and all of the Municipal Bonds and Notes are rated A and above by Standard and Poor's or A2 and above by Moody's. See the Schedule of Investments for a detail list of investments.

#### Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure or the failure of a counterparty, the Library's bank deposits or investments will not be returned to it. While there is no formal policy governing custodial credit risk, the Library's investment policy mitigates this risk by requiring that investments be in compliance with Illinois Compiled Statutes. The Library's bank deposits are fully covered by FDIC insurance. All of the Library's investments at May 31, 2019, are uninsured, uncollateralized, and held in the financial institution's name as nominee for the Library.

NOTE 5: CAPITAL ASSET ACTIVITY

Capital asset activity for the Library for the year ended May 31, 2019, was as follows:

	Beginning			Ending
Governmental Activities:	Balance	Additions	Retirements	Balance
Non-Depreciable Assets:				-
Land	\$ 205,328	\$ -	\$ -	\$ 205,328
Total Non-Depreciable Assets	\$ 205,328	\$ -	\$ -	\$ 205,328
Capital Assets Subject to Depreciation:				
Buildings and Improvements	\$2,147,123	\$ 74,983	\$ -	\$2,222,106
Equipment	73,328	14,551	11,126	76,753
Furniture and Fixtures	169,122	_	_	169,122
Computer Automation	115,156	3,119	_	118,275
Total Cost of Capital Assets				
Subject to Depreciation	\$2,504,729	\$ 92,653	\$ 11,126	\$2,586,256
	- <del>-</del>			
Less Accumulated Depreciation for:				
Buildings and Improvements	\$1,409,973	\$ 54,270	\$ -	\$1,464,243
Equipment	46,394	10,293	11,126	45,561
Furniture and Fixtures	159,281	1,617	-	160,898
Computer Automation	87,185	13,779	-	100,964
Total Accumulated Depreciation	\$1,702,833	\$ 79,959	\$ 11,126	\$1,771,666
			_	
Net Capital Assets Subject to Depreciation	\$ 801,896	\$ 12,694	\$ -	\$ 814,590
Net Capital Assets Governmental Activities	\$1,007,224	\$ 12,694	\$ -	\$1,019,918
The Capital Assets Governmental Activities	Φ1,007,444	φ 12,094	Ψ *	φ1,017,718

Depreciation expense was charged to the Library's governmental activity in the amount of \$79,959 for the fiscal year ending May 31, 2019.

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM

The Library participates in the Illinois Municipal Retirement Fund (IMRF) in conjunction with the employees of the City of Canton, Illinois (City). The Library withholds the employee's share of contributions and pays both the employees' and employer's share of contributions to the City, who remits the amounts to IMRF along with amounts for its own employees. The information given below includes both the Library and City of Canton employees.

#### **IMRF Plan Description**

The Library's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section below. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at <a href="https://www.imrf.org">www.imrf.org</a> and is prepared on the same basis of accounting using the same policies as the net pension liability disclosure is prepared.

#### **Benefits Provided**

IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP), including the Library's IMRF member employees. The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 48 consecutive months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM – continued

#### Benefits Provided - continued

Employees hired **on or after** January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the lessor of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

### **Employees Covered by Benefit Terms**

As of December 31, 2018, the following employees were covered by the benefit terms:

	IMRF
Retirees and Beneficiaries currently receiving benefits	80
Inactive Plan Members entitled to but not yet receiving benefits	33
Active Plan Members	<u>61</u>
Total	<u>174</u>

#### **Contributions**

As set by statute, Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2018 was 12.79%. For the fiscal year ended May 31, 2019, the Library contributed \$36,659 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

#### **Net Pension Liability**

The City and Library's net pension liability was measured as of December 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. Since the Library follows the modified cash basis of accounting, the liability is not recognized on the financial statements.

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM – continued

#### **Actuarial Assumptions**

The following are the methods and assumptions used to determine total pension liability at December 31, 2018:

- The Actuarial Cost Method used was Entry Age Normal.
- The Asset Valuation Method used was Market Value of Assets.
- The Inflation Rate was assumed to be 2.50%
- Salary Increases were expected to be 3.39% to 14.25%, including inflation.
- The Investment Rate of Return was assumed to be 7.25%
- Projected Retirement Age was from the Experience-based Table of Rates, specific to the type of eligibility condition, last updated for the 2017 valuation pursuant to an experience study of the period 2014 to 2016.
- For non-disabled retirees, an IMRF specific mortality table was used with a fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates for Mortality (for non-disabled retirees) were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience.
- For Disabled Retirees, an IMRF-specific mortality table was used with a fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Disabled Retirees Mortality Table, applying the same adjustments that were applied for non-disabled lives.
- For Active Members, an IMRF-specific mortality table was used with a fully generational projection scale MP-2017 (base year 2015). The IMRF-specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2018:

	Portfolio	Long-Term Expected
	Target	Real Rate
Asset Class	Percentage	of Return
Domestic Equity	37%	7.15%
International Equity	18%	7.25%
Fixed Income	28%	3.75%
Real Estate	9%	6.25%
Alternative Investments	7%	3.20-8.50%
Cash Equivalents	<u>1%</u>	2.50%
Total	100%	

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM – continued

### **Single Discount Rate**

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.71%, and the resulting single discount rate is 7.25%.

#### **Changes in the Net Pension Liability**

	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability
	(A)	(B)	(A) - (B)
Balances at December 31, 2017	\$21,395,391	\$19,866,623	\$ 1,528,768
Changes for the Year:			
Service Cost	\$ 313,186	\$ -	\$ 313,186
Interest on the Total Pension Liability	1,577,838	-	1,577,838
Changes of Benefit Terms	-	-	-
Differences Between Expected and Actual		-	-
Experience of the Total Pension Liability	249,447	-	249,447
Changes of Assumptions	667,896	-	667,896
Contributions - Employer	-	420,725	(420,725)
Contributions - Employee	-	148,002	(148,002)
Net Investment Income	-	(1,041,369)	1,041,369
Benefit Payments, Including Refunds			-
of Employee Contributions	(1,028,287)	(1,028,287)	-
Other (Net Transfer)		300,844	(300,844)
Net Changes	\$ 1,780,080	\$ (1,200,085)	\$ 2,980,165
Balances at December 31, 2018	\$23,175,471	\$18,666,538	\$ 4,508,933

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM – continued

#### Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the plan's net pension liability, calculated using a Single Discount Rate of 7.25%, as well as what the plan's net pension liability would be if it were calculated using a Single Discount Rate that is 1% lower or 1% higher:

	1% Lower	Current Discount	1% Higher
	6.25%	7.25%	8.25%
Net Pension Liability/(Asset)	\$ 7,556,014	\$4,508,933	\$2,027,902

### <u>Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources</u> Related to Pensions

For calendar year 2018, the City and Library would have recognized a combined pension expense of \$418,566 on the accrual basis of accounting. At December 31, 2018, the City and Library would have reported on the accrual basis combined deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred	Ι	Deferred	
<b>Deferred Amounts Related to Pensions</b>		<b>Outflows of</b>		Inflows of	
	F	Resources	Resources		
Deferred Amounts to be Recognized in Pension					
Expense in Future Periods					
Differences Between Expected and Actual Experience	\$	205,984	\$	173,184	
Changes in Assumptions		505,066		373,560	
Net Difference Between Projected and Actual					
Earnings on Pension Plan Investments	_	2,295,689		1,045,992	
Total Deferred Amounts to be Recognized in Pension					
Expense in Future Periods (net deferred outflows of resources of \$1,414,003)	_\$_	3,006,739	\$	1,592,736	
Pension Contributions Made Subsequent to the					
Measurement Date (Library Only)	_\$_	14,136	\$		
Total Deferred Amounts Related to Pensions	\$	3,020,875	\$	1,592,736	

#### NOTE 6: ILLINOIS MUNICIPAL RETIREMENT SYSTEM – continued

Amounts reported on the accrual basis as deferred outflows of resources and deferred inflows of resources related to pensions would be recognized as a reduction to the combined accrual basis pension expense of the City and Library in future periods as follows:

	Net Deferred			
Year Ending	Outflows			
December 31	of Resources			
2019	\$ 389,999			
2020	184,127			
2021	323,448			
2022	516,429			
2023	-			
Thereafter				
Total	\$ 1,414,003			

#### NOTE 7: RESTRICTED FUND BALANCE/NET POSITION

Restricted fund balance/net position is due to donations received that are designated for the summer reading program.

#### NOTE 8: RISK MANAGEMENT

The Library is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; injuries to employees; and natural disasters. Commercial insurance is carried for all risks of loss, including worker's compensation and employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### NOTE 9: PROPERTY TAXES

The Library did not levy any property taxes in the past three years. Thus, these financial statements do not include any property tax receipts or property tax levy data.

#### NOTE 10: CHARLES D. INGERSOLL TRUST

The Library receives monies from the Charles D. Ingersoll Trust. The trust agreement stipulates that the Library is to receive 50% of the annual distributions from the trust in quarterly distributions. The annual distribution policy is 5% of the past 3 years average assets.

### NOTE 11: SUBSEQUENT EVENTS

Subsequent events were evaluated through the financial statement issuance date of August 21, 2019, for potential disclosure in the financial statements. Subsequent to the fiscal year end, the board approved quotes for computer and software upgrades in the amount of \$60,869.
